

# Chilean horse-hair-made bags at the Sharing Design – Fabbrica del Vapore exhibition in Milan

*“Domado” stands for 100% natural, 100% ecofriendly products made out of high quality Chilean stallions hair.*

She was 5 when she first rode a horse. She fell in love immediately. While growing up, María Belén Trivelli fell also in love with design and now she chose to make a match made in heaven: purses and bags based not only in her love for horses but made *with them*. Although it's not what you think, as **Domado's** line products are made with eco-friendly leather and high quality Chilean stallion

hair. For each handbag the hair is manually selected, cut and washed, then driven to the “Felting” process, which allows the designer to create exclusive designs due to the diversity of each hair. The process assures the

selection of the best materials for the confection of the products and the precision of the best Chilean artisans, who transform the horse hair into an awe-inspiring and in one of a kind exclusive handbag.

Trivelli is a woman of vision: she truly believes that design can go with ethical behavior towards the animals she loves so.

**Domado** and 20 other Chilean brands were selected from over 100 projects to represent Chile at the Milan Design Week. The exclusive handbags will be shown from the **8<sup>th</sup> to the 13<sup>th</sup> of April** on the **Sharing Design** exhibition at Fabbrica del Vapore in **Via Procaccini 4, Milan**.
